

Financial institutions struggle to manage document intensive processes, leading to frustrated customers, wasted work hours, and compliance headaches.

Designed to solve the specific needs of financial organizations, Encapture combines decades of automation experience with low overhead, cutting-edge technology to simplify even the most complex workflows.

"Encapture has helped us streamline and cut the **number of touches** and **number of people** needed in our HMDA process."

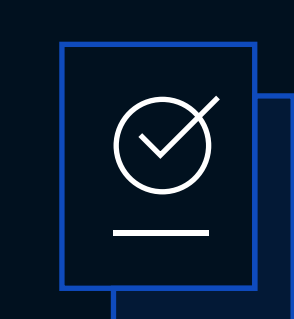

RHONDA CARROLL, CHIEF COMPLIANCE OFFICER

Apply Encapture automation to:

Prepare for expanding regulatory pressures

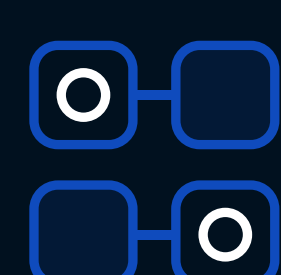

Ensure data integrity across systems

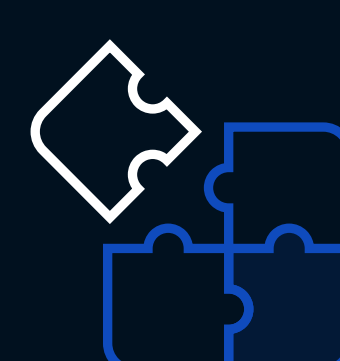

Reduce need for sourcing compliance talent

Teams are **eliminating manual data scrubbing** with Encapture.
