

ABOUT THE PROGRAM

Bank Director's Director Certification is the preeminent director designation available to those currently serving or wanting to serve on a bank's board. Offering two levels of curriculum, Fundamental and Advanced Courses, participants are provided with comprehensive training based on their level of experience and years served on the board. Each program enriches participants with a thorough grounding in corporate governance and important industry issues that greatly enhance the performance of individual directors.

Completing these courses to become a certified bank director sends a clear message to investors and state and federal regulators that participants take their fiduciary duties seriously and want to be a top performing member of a bank's board.
