Moving Forward With New Ideas and Strategies

While physical distancing caused modifications to this year's schedule of Bank Director conferences, our commitment and desire to share the most timely and relevant information with a hugely influential audience has not waned.

Since early March, we've spent considerable time reimagining how to bring key, board-level issues to life. With so many critical issues being put before a bank's board in a narrow window of time, we invite you to join us, in person, this November 9-11 at our inaugural BankBEYOND conference at the Four Seasons Resort and Club Dallas at Las Colinas.

For context, this special event combines the best of three annual Bank Director programs, specifically our:

- Bank Audit & Risk Committees Conference;
- Bank Compensation & Talent Conference; and
- Bank Board Training Forum.

Our team developed an agenda that enables officers and directors to quickly get their arms around emerging audit and risk issues along with evolving compensation and talent challenges.

Given the responsibilities of a bank's leadership team, BankBEYOND surfaces critical strategic issues, emphasizes corporate governance, discusses regulation, helps with strategic planning, identifies emerging technologies and explores crisis management.

Main-stage sessions focus on all of the issues facing a bank's team, while breakout sessions and peer exchanges are divided based on the participants' specific role on the board or with the bank – Audit/Risk, Compensation/Talent or CEO/Chair/Lead Director.

In terms of your health and safety, our team continues to evaluate and expand the measures we will implement. We are working with the host hotel to make sure of everyone's on-site health and safety.

In terms of registration protection, should you need to cancel due to COVID-19 issues, we will provide you with a full refund – or credit you in the amount paid for a future Bank Director event. Details about registration follow in this brochure and on BankDirector.com.

After months of sharing information remotely, we sincerely hope you and your team will consider joining us as we combine our three separate conferences into this new BankBEYOND event in Dallas this November.

With best regards,

Al Dominick

Banks are embracing new technologies at an ever-increasing rate and, as a result, are experiencing benefits such as a full digital banking experience, improved operational efficiency, better customer service and more effective regulatory compliance. In this session, we explore the changing landscape facing financial institutions, the opportunities and challenges presented by cloud banking technology solutions and the benefits that can be achieved through creative fintech partnerships that build relationships and enhance their organizations' value.

9:25 AM - 9:55 AM

Building Blocks of an Effective Board

A diversity of skills, experience and attitude constitutes a strong board – which reflects a set of enlightened governance policies and procedures that center on honesty, personal integrity and accountability. This session focuses on best practices that every board member should follow in order to maximize their time and contributions to their colleagues, constituents and shareholders.

9:55 AM - 10:25 AM

The Different Ways to Grow The Bank

There are a variety of ways a bank can grow, be it through acquisitions, de novo expansion, product-line growth (i.e., commercial loan production offices), using a lift-out strategy or pursuing a broader digital platform. Each strategy presents a unique set of challenges and opportunities. This session covers the risks and rewards of different approaches to growth and looks at successful banks that have pursued different paths.

Emerging Cybersecurity Threats

The cybersecurity landscape is constantly evolving. Two years ago, one of the biggest vulnerabilities came from ransomware, a type of malicious software that threatens to publish a bank's data or block access to digital distribution channels unless a ransom is paid. But last year, the prevalence of ransomware attacks dropped, as the rising price of bitcoin led cyber actors to focus instead on surreptitiously co-opting banks' servers to mine cryptocurrencies. Hear about the biggest cybersecurity threats confronting banks right now.

This has been a historical year as banks (and the world) respond to the effects of a global pandemic and an economic recession. Expectations for executive and board compensation pay levels and future program designs must adapt to this new reality. Will today's past best practices still reign? What might the "new normal" look like going forward? This session shares data on how U.S. banks have responded and presents considerations for year-end executive pay decisions and 2021 program designs for executives and directors.

Sharing The Crystal Ball

During this interactive session, we gauge the audience's opinions regarding emerging topics related to both audit and risk as determined by Bank Director's 2020 Risk Survey.

8:15 AM - 9:05 AM

How Risky Is The Current Banking Landscape?

In our 2019 Risk Survey, 70% of respondents told Bank Director that their concerns about strategic risk had increased over the past year. This can be attributed in great part to the changing competitive landscape, which has been fueled by technology. What do bankers need to know and – perhaps more importantly – what should they be doing now to ensure they remain competitive in the future?

9:05 AM - 9:45 AM

The New Normal

Working from home is likely to be a trend that sticks around – even after the pandemic ends. What do employees – and employers – really need to be successful? How can an employer keep employees engaged? How do we keep the in-office culture in place? What best practices have been cultivated over the past few months as our work lives have changed?

9:45 AM - 10:00 AM

Refreshment Break

10:00 AM - 10:40 AM

Breakout Sessions *(select one)*

Breakout I: Soup to Nuts: The Board Evaluation Process

The board is responsible for its own development, design and discipline – as well as its overall performance – and none of these areas can be delegated to the CEO. Thus, it is up to the board to assess itself to see what improvements and changes need to be made. Hear how to conduct this process, as well as how to address some of the common roadblocks to board evaluations.

Breakout II: Audit Best Practices

This session reviews the latest information on best practices related to the audit oversight function, including topics like BSA/AML, CECL, vendor management and new accounting standards on the horizon.

Breakout III: Arming the Third Line of Defense – Value-Added Loan Review, Emerging Best Practices

In today's tight margin environment and with economic headwinds looming, Loan Review departments are under a renewed level of analysis. In this session, we explore important questions including: What should directors know about the three lines of defense talked about by regulators and others? How can Loan Review assure directors that they are meeting their regulatory responsibility for effective credit quality oversight? What are the characteristics of an effective and strategically focused third line of credit defense? Learn from seasoned credit professionals how to better equip Loan Review – the Credit Third Line of Defense to bring more value to your institution.

Breakout IV: Compensation Programs & Risk Management – How They Work Together

Today's compensation plans have evolved greatly since the 2008 financial crisis. While regulatory guidance requires a principle-based approach, what have we learned in 10 years of application? This session focuses on what is important given the market correction of 2020, as well as how the U.S. regulatory environment compares to other major economies. This session also discusses what you need in place today from a regulatory and market perspective and what may occur post-Presidential election cycle.

10:50 AM - 11:30 AM

How To Weave Agility Into Your Culture

Boards are expanding their involvement in corporate strategy, but to what extent do CEOs and chairs think about the board fostering agility – through technology, talent, knowledge and/or organizational culture – required to stay ahead amid constant change, disruption and competitive pressures? Hear from leading-edge CEOs and chairs from around the country as they share their experiences related to these issues.
